GENERAL SECONDARY EDUCATION – SCIENTIFIC STREAM

Secondary School Certificate — 88.3%
2025 | Palestine

PROJECTS

Calculator Web App

Built an interactive calculator using HTML, CSS, and JavaScript, featuring basic arithmetic operations and a responsive interface.

To-Do List

Developed a dynamic To-Do List application using JavaScript, allowing users to add, delete, and mark tasks as completed.

Light & Dark Mode

Implemented a theme switcher system that allows users to toggle between light and dark modes to enhance user experience.

Responsive Web Projects

Built multiple responsive websites and pages using HTML, CSS, JavaScript, and Tailwind CSS, focusing on modern UI design and great user experience.

Other Frontend Practice Projects

Created various small projects and UI components to strengthen skills in JavaScript, programming logic, DOM manipulation, and responsive design.
